Agenda Item	Details
Direct Education Objectives	Among the current objectives for the Direct Education Subcommittee, the committee discussed adding evaluation support as a component to the subcommittee.
Outcomes and Expectations	Subcommittee discussed what expectations and outcomes they want, which includes: Training and technical assistance for SNAP Educators outside the scope of curriculum training (i.e. how to manage classroom sizes). Along the same lines, partners would like training or support on promoting curriculum to school/ teachers.
CSFP Support	AzNN has welcomed Stacy Beauregard, the CSFP Program Manager to the team. The goal is to expand efforts with CSFP and find ways SNAP-Ed can support this program. USDA provides resources to CSFP programs (such as fat tubes). We had a brief overview of the program and decided we would have future discussions with the subcommittee regarding what resources would be best to provide to the program. CSFP also has little funding to provide Direct Education. Stacy will be

	sending out a summary of who is funded for CSFP in the next AzNN biweekly.
Single Session Direct Education	The subcommittee reviewed what counts as a single session, when it is ok to use resources in place of Direct Education Curriculum, what doesn't need to be included in the Obesity Prevention Resource Guide and some examples of an appropriate single session lesson when using resources. A question was asked regarding posters (whether they need to be in the Obesity Prevention Resource Guide. The response to partners was that approval is needed and to contact Ryan on a case by case basis
Next Meeting	Tuesday December 15 th from 10:00 – 11:00am

Don't forget to attend the MyPlate for My Family Curriculum Training December 2nd from 10:00 – 11:30 and the MyPlate for My family Impact Evaluation training the same day from 1:00 – 2:30.
